

XSLT on the Browser

Michael H. Kay

The Past

1999

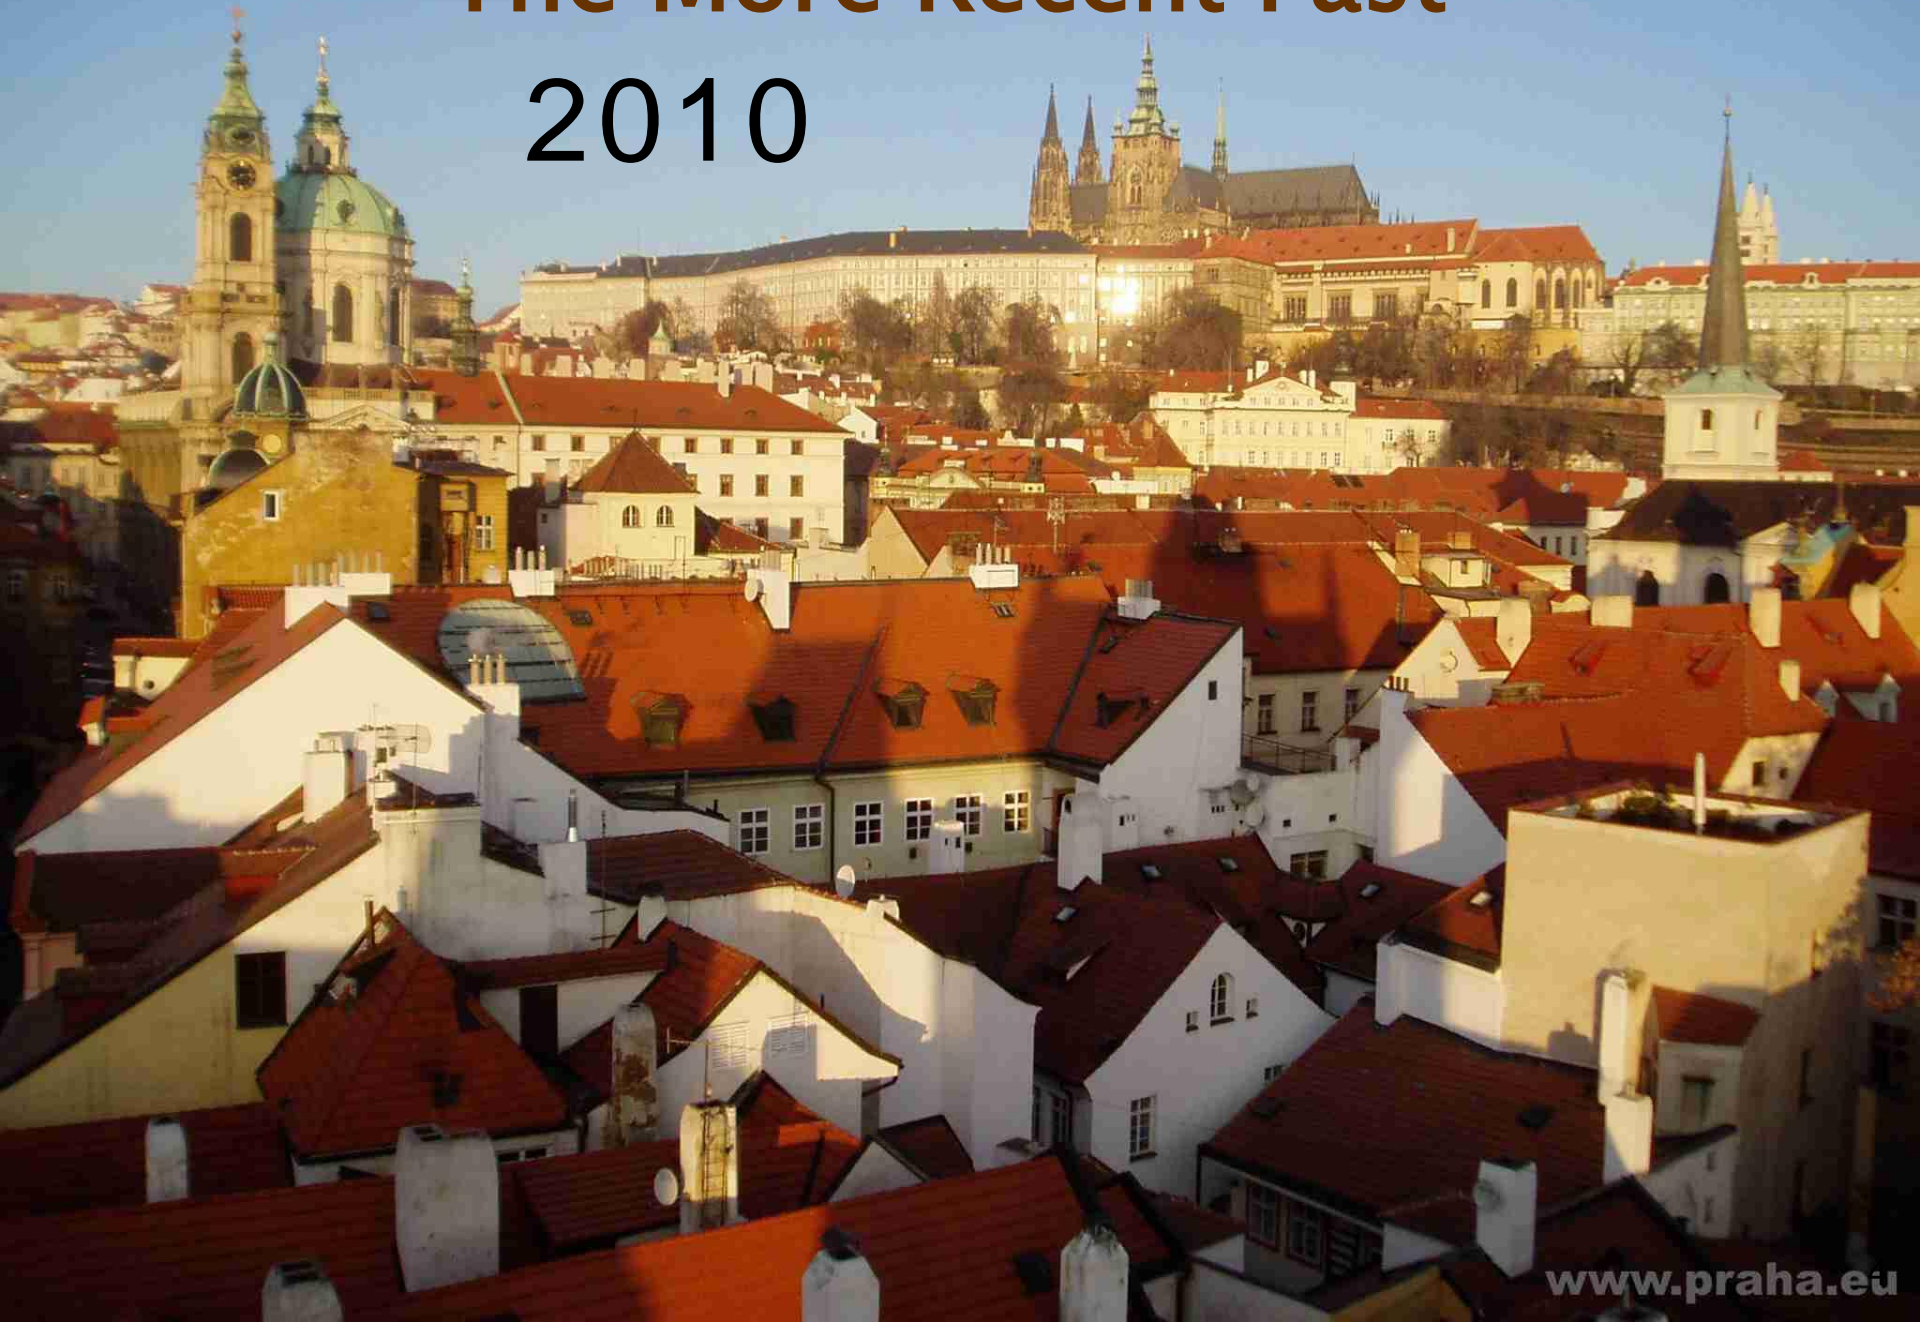

Why the lack of uptake?

- No universal availability
- No consistent JavaScript API
- Competition
 - CSS
 - JavaScript
- Doing it on the server is easier
- Stuck in the world of Web 1.0
 - relationship to AJAX?
 - relationship to XForms?
 - support for HTML5?

The More Recent Past

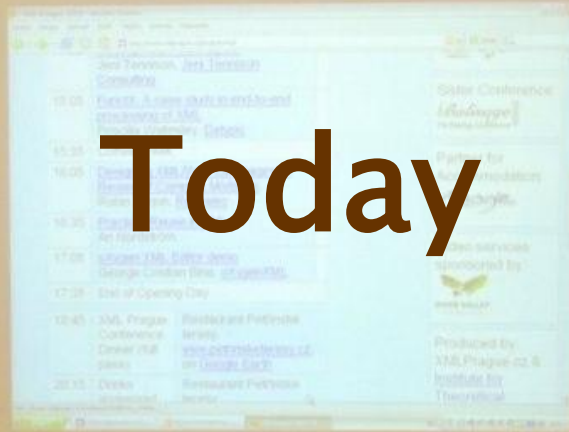

2010

What I learnt in 2010

*If you want to do it
in the browser,
do it in JavaScript*

Today

Saxon-CE

The Future

- Declarative
- Interactive
- Device-Independent
- Localized
- Stateful
- Cloudy
